Self-Test Procedure

ST-217 1st printing

This game will test itself and provide data to show that the game's circuitry and controls are operating properly. The data is provided on the video display and speaker. No additional equipment is necessary.

We suggest you perform the self-test procedure when you first set up the game, any time you collect money from the game, when you change game options, or when you suspect game failure.

To perform the self-test, set the self-test switch to the *on* position. To end the Self-Test Mode, set the self-test switch to the *off* position.

Test Passes

- 1. Set the self-test switch to on. All credits will be cancelled.
- Press each control panel and auxiliary coin switches. Insert coins into both coin slots (coins will not be counted on the coin counter).
- 3. Roll the Midi Trak-Ball.TM

Instruction

- 4. Press the 1-player start switch at least 64 times.
- 5. Press the 1-player start switch eight times.
- Observe 16 blocks of color in the character set on right side of the screen.
- Press and hold the 2-player start switch and press the FIRE switch
- Roll the Midi Trak-BallTM and press 2-player start switch 16 times.
- To erase the EAROM (erases the high-score table and game statistics), simultaneously press both start switches and EIRE
- 10. To end the test, set the self-test switch to off.

- The self-test display appears. RAMs and ROMs are tested. The start LEDs remain on during the test. If the screen is different from the self-test display, or if there are sounds, refer to *Chapter 2, Self-Test Proceedure*.
- When you press a switch, the appropriate 1 changes to 0 on the screen and you will hear a high tone. If the test fails refer to Chapter 2.
- A motion object picture moves around on the screen in directions corresponding to the Midi Trak-Ball. It the test fails, refer to Chapter 2.
- Each time you press the 1-player start switch, the motion object changes shape. If test fails refer to Chapter 2.
- You will hear a high tone each time you press the 1-player start switch. If the test fails refer to Chapter 2.
- Each of the 16 block should contain a different color. If test fails refer to Chapter 2.
- Playfield objects change color with each press of the FIRE switch. If test fails refer to *Chapter 2*.
- Each time you roll the Midi Trak BallTM and press 2-player start switch a motion object is moved from the diagonal group of objects in the center of the screen and placed in a new location on the screen. Test for 16 motion objects in this manner. If test fails refer to *Chapter 2*.
- The message EA FF appears in the upper left corner of the screen. The message remains on the self-test screen until the next game is completed.
