

GOGO COWBOY SERVICE BULLETIN

Date: Dec.15.2004

A) 1" CAPSULE HOPPER:

We recommend the use of 1" Superballs or 1" Round Capsules instead of 1" Acorn Capsules due to the breaking of the Acorn Capsules.

B) JACKPOTTING:

If broken capsule jams, the hopper will continue to turn for approximately 10 seconds searching for a capsule. This may result in payout of 5 or 6 capsules until the game errors. We have developed new software to reduce "search time" to approximately 1 second.

C) IMPROVED PAYOUT DOOR DESIGN:

We have designed an improved payout door bracket. New door will be available Dec.20th.2004. (Please see picture below.)

Contact Sammy's Service Department at 888-US-SAMMY for free updates.

NEW PAYOUT DOOR
