

YIE AR KUNG FU

IMPORTANT INFORMATION

YIE AR KUNG FU is preset at the factory at 1 MAN PER PLAY. This enables very achievable bonus men levels (as opposed to conventional 3 men per play)

This setting is a result of extensive testing. You will find that it is the optimal setting for YOUR best investment return.

We do not recommend changing the dip switch setting. If, you decide to do so, please carefully consider the adverse effect this could have on YOUR income.
